

The logo for PHIBER, featuring the word "PHIBER" in a bold, black, sans-serif font inside a white oval with a blue and black diagonal stripe on the left side.

**Bale Grabs Models: 204, 304, 404, 208, 308, 408,
1T 208, 1T 308, 2 Bale Econo & 3 Bale Econo**

A photograph showing a red tractor pulling a red bale grab through a field of golden hay. The grab is lifting several large square bales. In the background, a blue tractor is also visible.

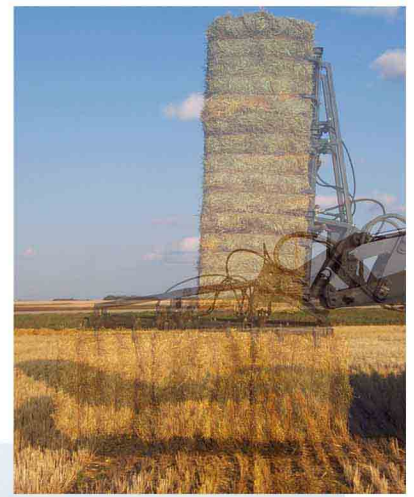

With ten models to choose from, farmers can match their large square bale handling needs with a PhiBer Bale Grab.

The combination of PhiBer's Bale Grab and Accumulator reduces time spent in the field. Handling two, three or even four large square bales at one time improves speed and efficiency of your operation. This reduces operator fatigue and increases productivity and profits.

The PHIBER logo, identical to the one in the top left corner.
